Vol. XXXV III

TO THE TO-BACCO GROWERS

To The Farmers of Henderson,
Webster, Union, Hopkins and
Crittenden County.

At the urgent solicitation of members of the old Stemming District Tobacco Association, who have been writing Mr. Sellars, the chairman of the old board, on several occasions to call a meeting of the said committee, to discuss the advisability of making an effort toward pooling the tobacco crop of 1916 or the present planting.

After considering these various calls from over the counties above mentioned, Mr. Sellars gave notice to the committeemen of the five counties above mentioned, to meet at Henderson on the 21st, day of May.

Pursuant to this call, the following members were in attendance at this meeting: Mr. R. H. Sellars, Henderson county; W. P. Curry, Webster county; B. E. Latton, Hopkins county; C. D. Colby, Union county; and Mr. F. L. Travis, Crittenden county.

The sentiment expressed by all was in favor of calling another meeting in the near future to pool the next crop.

Upon a motion made by the executive board, it was decided to place this matter up to the tobacco growers of Henderson, Webster, Hopkins, Union and Crittenden, and to get an expression from them, as to whether they wished to pool the present crop or not, and after the committeemen had evidence to justify them, they would then call another meeting, say about July 1st, to take additional steps in the matter. It was the sense of this committee, that there was no money available now to pay canvassers, and it would be unwise to spend money in anticipation of another pool until they had had an expression from the people in these five counties.

These pooling papers will be sent out at once, and distributed over the five counties, and if it is the desire of tobacco growers to again pool, they will be given the opportunity to do so, and if in the opinion of the executive board, a sufficient percent of the farmers indicate their willingness to pool the present crop, the committee will take hold of this matter and vigorously push it to a conclusion.—Executive Board.

BAPTIST MINISTERS MEET.

A dozen or more of the Baptist Ministers of the Ohio River Association met with the Second Baptist Church of Marion at 10:30 A. M. May 20th., and organized a meeting to be known as the Baptist Prayer Meeting of the Ohio River association.

They will meet quarterly with the various churches of the Association. The purpose of this meeting is to pray for the various objects of the work with in the bounds of this Association. There

was a great interest manifested among the brethren and we trust will result in much good in the cause of our master, next meeting will be held with Hampton Church August 22nd 1916 at 10 A. M.

At the noon hour the good sisters of the 2nd. Church spread a bountiful dinner of which all present enjoyed very much.

The spiritual atmosphere was fine and many earnest prayers were offered.

We earnestly desire a good attendance of the brethren at our next meeting.

Willard Franks Thanks Friends

I take this method of expressing my sincere thanks to the people who gave me their votes in the late contest for the pony and carriage. You could not have conferred a favor on me that would have given me greater enjoyment in life and you will always have my highest appreciations for this unmerited kindness. I hope I may so live as to maintain the confidence you have reposed in me.

The ice cream supper near Deanwood was well (?) attended.

Sylvia Denn, Rebecca Morse and Leah Birchfield are at home from Marion, where they have been attending high school.

Uriah Terry and family visited Mrs. Olivia Walker Saturday night and Sunday.

Miss Carrie Morse was the guest of Miss Ruby Dean at Marion several days last week.

How would you like to travel 108 miles by sleigh in zero weather?

That's what President Terry of the Hartford Fire Insurance Company did after the great New York fire of December 16, 1835, in order to make immediate payment of the Hartford losses.

In the same staunch spirit the Hartford promptly paid out \$1,900,000 after the Chicago fire, and \$10,000,000 after the San Francisco disaster.

Hartford protection costs you no more than other kinds—and you can depend upon prompt settlement in case of fire. May we tell you more about it?

The Parish Players, Who Are Coming Here Chautauqua Week In Three One-Act Plays

Photographs by Moffett, Chicago.

THE Parish Players. The value of the drama, rightly directed, in community life is to be described and illustrated on the third night of the Chautauqua. Harold Heaton, prominent in connection with the "little theatre" movement and Chautauqua lecturer on matters pertaining to the drama, will give a brief introductory address on this theme, upon which he is an authority. This is to be followed by three one-act plays by the Parish Players; also a brief sketch—the "Lady Teazle" scene from the old classic, "The School For Scandal."

The first play will be a stirring and timely drama known as "The War Zone," which not only interests, but has a lesson. The "Lady Teazle" scene will follow, then a romantic play and, lastly, a clever and pleasing comedy.

As to the personnel, Harold Heaton, heretofore referred to, will play an important role. He has played with many famous actors, including James K. Hackett. Miss Fern Hobart Doubleday, another member of the company, is a brilliant young actress of great personal charm and vivacity who has appeared in several repertory companies and has won honors in lyric pantomime and musical comedy. Having appeared in leading parts with the Victoria Players and the Boyd-Nolan Players, Miss Doubleday is an experienced player as well as a student of the drama.

Earl Russell, comedian and character impersonator, has been successful as the sultan in the "Sultan of Sulu" as well as in other important characters in the plays from the writing of George Ade.

Mr. Fritz Schlemmer is the fourth member of the cast. In addition to his work as an actor, he is a master of lighting effects and has recognized abilities as a painter, both of which talents will add to the effectiveness of this production.

The staging for the Parish Players, for example, was created especially for them by Fritz Schlemmer and executed by the Dodge & Castle Studios, New York.

The lighting effects are from the celebrated Klarly Studios, New York, the same masters of stage lighting who produced the wonderful effects in the "Garden of Allah" and "Kismet" for the New York Hippodrome.

PEORIA WOMAN TELLS EXPERIENCE

Mrs. W. L. McClellan, of Peoria, suffered torture from indigestion, gas belching and other symptoms of stomach trouble. She spent large sums of money for doctors' advice and medicine. Still her condition did not improve. She found relief, wonderful, surprising relief in a drug store window. This is her story, as she tells it:

"I suffered so from distension and colicky pains that at times I was completely incapacitated for my household work. I saw a window display of May's Wonderful Remedy and decided to purchase a bottle, which I did. I have taken only one bottle and the results have been really wonderful. I have not had a pain in my stomach since, and let me say that for the first time in many, many months, two days following I have had a natural movement of the bowels. I feel I cannot say enough for the remarkable virtues of your remedy."

May's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

CHIPPING SPARROW

Spizella passerina

Length, about five and one-fourth inches. Distinguished by the chestnut crown, black line through eye, and black bill.

RANGE: Breeds throughout the United States, south to Nicaragua, and north to southern Canada; winters in the southern United States and southward.

HABITS AND ECONOMIC STATUS: The chipping sparrow is very friendly and domestic, and often builds its nest in gardens and orchards or in the shrubs close to dwellings. Its gentle and cooing ways endear it to all bird lovers. It is one of the most sociable of all the sparrows. Its diet consists of about 42 per cent of insects and spiders and 58 per cent of vegetable matter. The animal food consists largely of caterpillars, of which it feeds a great many to its young. Besides these, it eats beetles, including many weevils, of which one stomach contained 30. It also eats ants, wasps, and bugs. Among the latter are plant lice and black olive scales. The vegetable food is practically all weed seed. A nest with four young of this species was watched at different hours on four days. In the seven hours of observation 119 feedings were noted, or an average of 17 feedings per hour, or four and one-fourth feedings per hour to each nestling. This would give for a day of 14 hours at least 238 insects eaten by the brood.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. The Catarrh Cure, the young patients cure now known to the medical fraternity, Catarrh being a constitutional disease, requires a constitutional treatment.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous membranes of the body, destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for any sample of it. It is safe and non-poisonous.

Watch Chilie's Cough

Chilie, running of nose, continued irritation of the mucous membrane if neglected may mean Catarrh later. Don't take the chances—do something for your child! Children will take every medicine, but they will take Dr. King's New Discovery and without bribing or teasing. It's a sweet pleasant Tar Syrup and so effective. Just laxative enough to eliminate the waste poisons. Almost the first dose helps. Always prepared, no mixing or fussing. Just ask your druggist for Dr. King's New Discovery. It will safeguard your child against serious ailments resulting from colds.

Whiskey? No.

Not For Rheumatics.

Don't drink whiskey if you have rheumatism, be sure and keep your feet warm and dry, and drink plenty of lemonade.

This advice, says an authority, is helping; but as all know who have suffered, rheumatism is a stubborn disease and yields only to a remedy mighty enough to conquer it.

Many doctors have prescribed and hundreds of helpful druggists have advised a half teaspoonful of Rheuma once a day, because they know that powerful Rheuma, harmless as it is, acts with speed and overcomes in a few days the most torturing case of rheumatism or sciatica.

Try Rheuma; J. H. Orme and all druggists sell lots of it and will return your money if two 50-cent bottles do not stop all rheumatic misery.

A YOUNG MAN

without good clothes is like a fish without fins, an eagle without wings,--a "home without a mother-in-law." Incomplete, unhappy, out of the swim! It's as natural for

a young man to want good clothes as a horse to want oats. There's something wrong with any young fellow who "doesn't care." And if you care at all, you care enough to get the best; to get something worth while; to be "in style" and up-to-date! Of course---and it's all so easy that it's a wonder anyone should go wrong on the clothes question. YANDELL-GUGENHEIM CO., fill every requirement. We can give you exactly what you want--style, quality, distinctiveness; all at very moderate cost. We are specially well equipped to fit you out this spring.

Question Validity of Union's Bond Election

Morganfield, Ky., May 22.—

A question has arisen as to the validity of the election held in Union county on April 1, by which \$450,000 bonds were voted for the building of roads and bridges.

The matter was referred to Storrey, Thorndyke, Palmer & Dodge, bond attorneys, of Boston Mass., who in their opinion doubt the legality on account of the election not having been properly advertised.

The election was advertised in the Morganfield Sun, a twice-a-week paper, but only inserted in every other issue. The opinion of the attorneys being that it should have been printed in every issue.

Sufficient Proof.

This is what Herman Rosenfield, advertising manager of Sears, Roebuck & Co., recently told the Americon Ad club at a convention: "We have a bureau whose duty is to read the country newspapers. There is not a paper of any consequence in our territory we do not get. The bureau looks over these papers and when we find a town where the merchants do not advertise in the local paper, we immediately flood the territory with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local papers."

A WONDERFUL ROOSTER.

Seymour, Ind., May 22.—Mrs. Eliza Jacobs, who lives on a farm eight miles west of this city, owns a rooster that is equal to any rat terrier when it comes to eradicating the rodents about the place. The rooster has located several holes near the sheds and patiently guards over them, awaiting the appearance of a rat. He sits on guard by the entrance and seldom lets a rat escape.

It Wasn't A Kitten.

Nearly all the pupils and the young teacher at Smartsville school thought it was a kitten at first. The exception was John Reading, who identified the animal and promptly slid out of an adjacent

window. Incidentally that is why Johnny didn't have to get a new suit.

Teacher and other pupils tried to fondle the kitten. Incidentally that is why they did have to get new suits and why they did have get new suits and why the school house is being fumigated.—Maysville Bulletin.

Interesting Report By

W. D. CANNAN.

(Concluded from page 1.)

The air is so pure and invigorating that you find yourself hastily exhaling the breath in order to be able to inhale it again.

At 3 p. m., Wednesday, the 17th, the convention was opened in the Alexander Tabernacle, a great structure with a seating capacity of 5,000 but with extra chairs seating some 2,000 more. It was indeed a wonderful gathering of Baptists, as was shown from the report.

Representing over 4,000,000 Baptists. It seemed as if the whole world were Baptist, if not, they ought to be.

It was indeed a great meeting and is an inspiration to be in the presence of some of the greatest preachers in the world, such as Geo. W. Truett, Lansing Burrows, Len G. Braughton, Dr. Gambrell, W. M. Wood, E. Y. Mullens, M. E. Miller and hundreds of others.

On Friday a crowd of about 100 availed themselves of the opportunity to go upon Mt. Mitchel. Eighteen States were represented on the trip. This certainly is one of the greatest scenes in America.

From the starting point to the top of this mountain is only 7 or 8 miles, but the way the scenic railway runs is 23 miles to the station on stopping point, then a tail of one mile to the top.

We arrived at the last stop at 1 p. m., and about 1:30 we were on the mountain top. After a short rest and rambling over the summit, upon suggestion, a

praise service was held, Rev. C. W. Rodgers, of Sarah, Miss., called to those who were present that some of us was going to hold a praise service in the obser-

vation tower. Bro. Rodgers made a short talk and called the meeting to order, and the follow-

ing program was carried out:

Song—"Higher Ground."

Scripture Reading—Rev. Jas. Allen Smith, of Maryville, Tenn., Mark 9:1-14, speaking on the "Transfiguration."

Prayer—Rev. Z. D. Harnie, of Ellenville, N. C.

Talk—"Importance of Religious Teaching."—W. D. Cannan, Marion, Ky.

Talk—"Standard of The Chris-

tian Should be Equal to that of The Pastor."—B. G. Broadman, Kingston, R. I.

Talk—J. J. Johnston, Oxford, N. C., "The Work of the Pastor and Teacher."

"Sweet Bye And Bye," and

"Amazing Grace," was sung and closed with prayer by Rev. C. M. Rogers.

The following eighteen States were represented:

Rev. C. W. Rogers, Sarah, Miss.; Rev. Jas. Allen Smith and wife, Maryville, Tenn.; Rev. J. D. Harnie, Ellenville, N. C.; W. D. Cannan, Marion, Ky.; Rev. B. G. Broadman, Kingston, R. I.; Rev. J. R. Stone and wife, Knoxville, Tenn.; Rev. J. W. Lett, Americus, Ga.; Rev. P. C. Stanton, Staunton, Va.; A. W. Cook, Greensboro, N. C.; Mary E. Peak, Kalama-zoo, Mich.; Frances Barbon, Detroit, Mich.; H. N. Buick, Rentz, Ga.; J. J. Johnston, Oxford, N. C.; H. P. Glas-gow, Roanoke, Va.; Mrs. Mary Turner, Lynchburg, Va.; Mrs. Emily Judson, Lynchburg, Va.; H. C. Duncan, Chesterwood, Ky.; Miss M. P. Marri, Lynchburg, Va.; H. A. Dane, Tillitoba, Miss.; Mrs. G. C. Holloway, Nicholaville, Ky.; John A. Baker, Jr., Pa.; Mrs. C. L. Turk, Bardwell, Ky.; W. H. Finney, Morrow, Ky.; Miss Swan-nie Saunders, Goodview, Va.; R. D. Carpenter, Crawley, La.; James L. Walker, Greenville, S. C., and a number of others that I failed to get their names and addresses.

While the convention was not in session I was trying to "see things." The Vanderbilt estate out at Biltmore, Mt. Pisgah, Sunset Mountain, Grove Inn, Ridge Crest, were all beau-tiful but the scene on three hours ride and the one mile trail to the top of Mt. Mitchel put all the others in the background.

The sermon by Geo. W. Truett, of Dallas, Texas, was certainly plain and powerful.

Two hours before the time for the preaching the Tabernacle was filled and hundreds even thousands were turned away. The text—"I am not ashamed of the gospel of Jesus Christ." And I was not ashamed of it either. The convention meets next year at New Orleans. I hope that many of the lay members of this association will attend next year. It will help you and cause you to help others.

NEW PARASOLS FOR

RESPLENDENTLY LOVELY.

Many plain taffetas in blue, tan, green, rose, lavender and striped combinations in colors and black white are shown with natural wooden handles. The new short frilly parasol is very fetching, also the cord bracelet idea is good, slipping comfortably over the wrist so there is no danger of losing it. You should come in and see this showing. They make beautiful gifts for graduates and brides. Priced \$1.00 to \$8.00.

You'll do just as we did when this shipment of Parasols arrived--really enthuse about them, they're so beautiful, so varied in style, colorings and materials. Just a suggestion of what some of them are like.

WOMEN AND CHILDREN

LITTLE GIRLS ADORE THEM.

Parasols for them are just as dainty and pretty as those we have provided for mother and big sister--in this showing there are parasols of flowered cottons for the little youngster and fancy striped and figured silks for young misses--splendid for gifts. Priced

50 cents to \$4.50.

FRENCH BANK GATHERS GOLD

Bank of France Takes in a Billion and a Half Francs—Finances The Government.

Paris, April 28—The Bank of France has taken in a billion and a half francs in gold in deposits

and in exchange for paper money and government bonds

since Dec. 24, 1914, and the receipts

continue at the rate of five million a week.

These receipts have brought its gold reserve up to about the five billion mark and maintained it there notwithstanding shipments abroad in the meantime of 666 millions, most of which went to Great Britain.

The favors were Old Rose Crochet Baskets with gray bows filled with mints.

The menu consisted of five courses.

First course—Strawberries in timbols.

Second course—Jellied Salmon in a bed of Parsley; peas in timbols; potato chips; Bombay Duck with white sauce and Boston brown bread.

Third course—Dale Salad served on lettuce, pickles and wafers.

Fourth course—Strawberry Frappe and white cake decorated with the class colors.

The bank has now advanced to the government seven billion one hundred million francs. The money is lent at the special rate of one percent interest by the terms of the contract with the government, and is to be re-

paid within one year after the end of the war or before. If the loans are re-newed after that period, they will bear three percent interest.

Besides financing the government the bank has protected the exporters unable to realize on their foreign credits at the outset of the war by buying up their drafts to the amount of 800 million francs, and furnishing guarantees for an English loan of five million pounds to a Parisian bank and for an American loan of \$20,000,000. It has at the same time contributed largely to the revival of trade by facilitating payments in instalments of balance due from merchants at the beginning of the war, involving a stupendous amount of work since at the beginning of 1915 there were in the main of exchange more than 200,000 different debtors, amounting to 2,078,982 215 francs. The transactions of the bank during the first full year of the war, cash receipts and payments combined amounted to 214,522,000,000 francs.

One result of the perturbation in finances resulting from the war was the encouragement given to customers by the bank to make their transfers by check instead of currency. It may result in a permanent and general use of the American check system, thus far looked upon with little favor in France.

DEATHS

Mrs. Susan May Dixon, died Friday May 26, 1916, at 11 o'clock, after a lingering illness of several months, from which it was known by her family and friends she could never recover.

She was the widow of the late Dr. John O. Dixon to whom she was married June 20, 1889, and had never been reconciled to his death which came so suddenly and was such a shock to her.

She is survived by one son, Galen, of Hurricane vicinity, and one daughter Mrs. W. M. Nunn, of this city; two brothers, J. B. and P. B. Croft, of Tolu and three sisters; Mesdames Nora Yates, of this city, and Mrs. Green B. Crawford and Mrs. W. E. Dowell, of Tolu, all of whom were here to attend her funeral and burial.

The deceased was born April 26th, 1862 and was therefore in her 55th year.

The funeral was preached Saturday afternoon at 2 o'clock, at the First Baptist church of which she was a member, and the interment was at the new cemetery immediately after.

SENATOR BECKHAM

Thinks Some Other Democrat Should Be Placed On Kentucky Delegation

Washington, May 29.—Senator J. C. W. Beckham, who left last night for Lexington to attend the democratic state convention today authorized a statement to the effect that he will not ask the convention to make him a delegate to the national convention, believing that this honor should go to some democrat who does enjoy public office and party honor, but who is giving his time and ability to the success of the party as enthusiastically as if he enjoyed material honors from it.

Senator Beckham says he thinks he should be content with honors present and past conferred upon him, and not seek to deprive some one else of recognition which he might have because of his present place.

Senator Beckham said:

OUR PUBLIC FORUM

R. P. Schwerin
On the Seamen's Bill

The American plowmen are interested in sea commerce. It is expensive and likewise humiliating to have to salute a foreign flag every time a farmer wants to ship a bushel of wheat, a bale of cotton or a pound of farm products across the ocean. The American farmer is entitled to the protection of his flag in sending his products across the sea, and Congress should give such encouragement to shipping interests as is necessary to meet foreign competition in ocean commerce. A recent bill known as the Seaman's Bill became law under the President's signature and Mr. R. P. Schwerin, vice-president of the Pacific Mail Steamship Company, when asked to define this law and outline its effect upon American steamship lines, said in part:

"The bill provides that no ship of any nationality shall be permitted to depart from any port of the United States unless she has on board a crew not less than seventy-five per centum of which, in each department thereof, is able to understand any order given by the officers of such vessel, nor unless forty per centum in the first year, forty-five per centum in the second year, fifty per centum in the third year, fifty-five per centum in the fourth year after the passage of this Act, and, thereafter sixty-five per centum of her deck crew, exclusive of licensed officers and apprentices, are of a rating not less than able seamen."

"The overseas trade of the world is competitive, therefore the original cost of the ship and the operation of the ship have to be reckoned with in the keen competition of these rival nations with one another. The Oriental sailor is obedient and competent and in the cheapest sailor in the world. It is therefore manifestly clear that if this law applied to all nationalities in the transpacific traffic, all would be on the same economic basis, but it works a single hardship to all the ships of the world, except the Japanese and American ships, and with the latter it works two hardships. With the European, the cost of constructing a ship is no higher than the cost of constructing a Japanese ship, but if they had to provide European crews, while the Japanese operated with Japanese crews, the condition of competition would be such that they could not overcome the handicap and they would be driven off. But the American ship would have to contend not only with the tremendous increase of cost of wages in the substitution of the European crew for the Chinese crew, but also the greater initial cost of the ship. As the Japanese have now done away with their European officers and Japanese crew, all of whom speak a common language, there is no difficulty for them to comply with all the conditions of the bill and continue their Japanese crews, with Oriental wages."

"The law, therefore, instead of assisting the American ship, adds another heavy burden, while it places none whatever upon the Japanese ship, but, on the contrary, turns over to the Japanese the traffic of the Pacific Ocean, which the American ship is forced to forego by act of Congress of the United States."

Johnnie James spent last Sunday at home.

Our Sunday school has purchased new organ.

Chautauqua Season Tickets

In arranging to inaugurate this Chautauqua this year, the local committee bought 1,000 \$3.00 season tickets.

After the opening day no season tickets can be had for less than \$3.00.

For the single admissions to the respective entertainments, see the official programs.

Season tickets are non-transferable except within the owner's family. The name of some member of the family must be written in ink upon every season ticket. This provision is made primarily as a protection to the owner in case the ticket should be lost.

Children's tickets admit children aged six to fourteen years inclusive. All children are admitted to the children's work free.

These tickets will be sold while they last at \$2.50 each.

QUARTER MILLION PEOPLE FAVOR A PROPER DEFENSE

Personal Protection Against Common Enemies Is the Popular Policy.

More than a quarter of a million people—over two hundred and fifty thousand men and women—praise Tanlac today because Tanlac has made them better—made them feel better, given them more strength, more energy, more vim, better nerves, finer ambition, easier hope.

The tremendous triumph of Tanlac is easy to understand.

There are many sick people—some of them actually diseased, others simply "tired," "not feeling well," "run down." And very often to be ailing, not feeling well, run down, is just the beginning of being diseased, because sickness brings illness. The weak and easily successfully resist attacks of disease.

These sick people sometimes get used to being sick. They are in the habit of not feeling well. People get so they believe it is natural to suffer from rheumatism, dyspepsia, belching and bloating from gas, congestion and soreness of the stomach, constipation, ill-natured liver, diarrhea, kidney trouble, pains in the sides and back, palpitation of the heart, head aches, "ringing in the ears," weakness, nervousness, loss of appetite, sleeplessness, falling off in weight, foul breath, control tongue and irritability.

When such people take Tanlac and gain relief from their ills by Tanlac, get back their health and once more actually enjoy "being alive," they praise Tanlac, praise it with the thanks and gratitude that only the winning lack of health can put into their hearts.

GAINS EIGHT POUNDS.
Mrs. W. M. Patton, Clay City, Ky.: "I suffered intensely with stomach trouble and finally it affected my whole constitution. I became so nervous I could not sleep, and would have something to eat. Tanlac gave me immediate relief. The smothering sensations and choking disappeared. I have gained eight pounds since taking Tanlac. I recommended Tanlac because it gave me relief after all other remedies failed."

IMPROVED GOLD.
G. C. Cornelius, Shivelyville, Ky.: "My mood was in such bad condition that if I grabbed my fingers my whole body would break up with soreness. I was suffering from dyspepsia and a general run-down condition. Since taking Tanlac my blood is improved, and I am not bothered with sores any more. I can now sleep well again. I recommended Tanlac because it gave me relief after all other remedies failed."

TANLAC'S TRIUMPHS

In the first nine months after Tanlac was offered to the public in Kentucky, one million bottles were taken. Tanlac won instant recognition as the Master Medicine.

The Tanlac Laboratories are producing Tanlac at the rate of five million bottles a year, and the demand is even greater than that.

There is a reason for Tanlac's triumphs. Back of Tanlac's record in the drug stores is Tanlac's record in the home itself. Both records prove Tanlac's extraordinary merit. Only this extraordinary merit of Tanlac sets the kind of victories that Tanlac has won and is winning.

WHAT MEN DON'T KNOW OF WOMEN IS A WHOLE LOT

There are lots of things about women that the average man does not understand.

When women sit in the morning day or just as apt to feel tired as anybody else. But women generally conceal their weariness. They just go to the toilette about the house and say nothing.

Mrs. Edgardo Steigwald, of 723 Eleventh Street, Lexington, gives some interesting experiences on this subject.

"When I got up in the morning now I feel vigorous, and I work from morning till night without any pains whatsoever."

For Mrs. Steigwald took Tanlac. Her condition before she took Tanlac was different.

"I suffered severely from my kidneys, and my blood was also in a bad condition."

"Hearing so many people speak well of Tanlac, I thought I had better try it. After taking three bottles I can truly say that it has helped me wonderfully. When I get up in the morning I feel vigorous and work from morning till night without any pains whatsoever."

"Tanlac is certainly a wonderful medicine. I really recommend it to any woman who suffers as I suffered."

"LIKE A NEW MAN."

John T. Wood, formerly of Lexington, Ky., now manager of Y. M. C. A. building, Dayton, Ohio: "I was a sick man when I left home in Lexington. My brother J. D. Wood, of Brown county, Indiana, told me to take Tanlac. He said it had relieved him of stomach trouble, which had me completely down and out of a physical weight. I have gained eight pounds since taking Tanlac. It is worth its weight in gold."

WORTH WEIGHT IN GOLD.

Mrs. F. J. Terrell, 455 Ward Avenue, Bellevue, Ky.: "My stomach was so weak that I could not eat. I had to lie down a pint of water. I used to get spells of indigestion that took all the energy out of me. I lost sleep and could not eat enough to sustain me. Since taking Tanlac I can eat anything without digesting it. I sleep soundly throughout the night. I sleep soundly throughout the night. I am a different woman since taking Tanlac. It is worth its weight in gold."

STRANGE PEOPLES DELVE WEIRDLY IN HILLS AND PLAINS

Wilderness, Waste, Jungle and Tundra Have Harvests of Their Own.

Throughout the whole vast world Nature has her gardens—in the jungles of the earth's midland, in the fringes of the regions near the spine, in the fields and forests of the temperate zones, in wild and waste, in dale and valley and mountainland.

Strange gardeners harvest and clean these gardens—Nature's children, who men, many of them—others semi-civilized, who are the link between the enlightened peoples of the earth, and the uncultured savages.

In every one of her gardens Nature has planted something for healing—something which has remedial andorative powers. Each of them has some strength and purpose all its own. While Nature scattered them throughout her vast gardens, man has gathered the best of them for Nature's great Master Medicine, Tanlac, the reconstructive tonic, system purifier, restorative and revitalizer—which battles health and strength through the stomach, blood and nerves.

The gathering of any one of the ingredients of Tanlac—all vegetable free from mineral stains—would make a brilliant dye in itself. Some of them are gathered by natives at the risk of life and limb, in regions where the white man never sets his foot.

The pictures suggest to the imagination the varied lands and peoples used by Nature as her gardens and her gardens. Nature uses all things and man—Nature in turn is used by wise men.

PHYSICIAN PRAISES IT.

Dr. H. F. Owens, 1621 Schwartz Avenue, Louisville, Ky.: "I suffered from rheumatic trouble and tried various remedies with little relief till I took Tanlac. Tanlac has greatly relieved me. Tanlac has done wonders for my wife, who suffered from rheumatism and stomach trouble. Now she can eat anything without suffering as she formerly did. I recommend Tanlac to my brother, who has derived benefit from it, and to patients who were benefited by it."

"I FEEL WELL AGAIN."

Mrs. Lee Jockell, Valley Station, Ky.: "I was a sufferer from indigestion on ten long years. I felt sick all the time and had no energy to work. Like people who have suffered long, I had little faith in any remedy. One day I saw statement about Tanlac in the newspapers. A friend recommended it, so I tried it. Three bottles of Tanlac made me feel well again. Just think of it—not more digestion."

Length, about fifteen inches. Medium sized, with long tail and short wings, and without the white patch on rump which is characteristic of the marsh hawk.

Habits and economic status: The Cooper's hawk, or "blue darter," as it is familiarly known throughout the South, is pre-eminently poultry and bird-eating species, and its destructiveness in this direction is surpassed only by that of its larger congener, the goshawk, which occasionally in autumn and winter enters the United States from the North in great numbers. The almost universal prejudice against birds of prey is largely due to the activities of these two hawks, assisted by a third, the sharp-shinned hawk, which in habits and appearance might well pass for a small Cooper's hawk. These birds usually approach under cover and drop upon unsuspecting victims, making great ladders upon poultry yards and game coverts favorably situated for this style of hunting. Out of 123 stomachs examined, 38 contained the remains of mammals. Twenty-eight species of wild birds were identified in the above-mentioned material. This destructive hawk, together with its two near relatives, should be destroyed by every possible means.

SEVEN SPRINGS

Rev. Wm. Crouch filled his regular appointment at this place Sunday. He failed to be with his congregation on Saturday as he was called away to conduct a funeral service.

Robert Stubblefield and wife and little son, Matlock and Mrs. Fannie Travis, of the Emmaus neighborhood, were guests M. L. Patton and family Saturday night and Sunday.

Tom Brown and wife attended the burial of Mrs. Brown's mother, Mrs. Amanda Campbell, who died near Frederonia last Friday of lung trouble. Her remains were interred at the Asbridge graveyard Saturday.

Moat Duvall has moved into his new house.

Mason Patton and wife visited relatives here Sunday.

Miss Hattie Holder has been quite sick but she is improving at this time.

John Brown and wife, of Caldwell Springs, were pleasant visitors at the home of Mrs. Sarah Patton in this vicinity Monday.

Mrs. Sarah McClure and daughter, Miss Pearl, of near Pinkneyville, were guests of L. K. McClure and wife Sunday.

Raymond Patton makes regular trips to Emmaus to attend Sunday school. We judge from the distance that there must be some attraction down there.

Paper Shortage Causes

Publication to Suspend.

Chicago, Ill., May 29.—That the war in Europe may materially increase the price of newspapers, magazines and periodicals was the belief expressed here at a meeting of the Executive Committee of the International and Daily Press Association.

The meeting was called to devise ways and means of meeting the shortage in paper stock and a resolution was adopted urging the strictest economy, in the use of paper. It was said that in two cities of 10,000 population and in smaller cities, several daily newspapers were on the verge of shutting down completely or issuing smaller editions.

BLACKFORD

This is the month of June when the days are long and likely to be warm and sometimes hot, yet with the hope that all Blackfords may survive during the "ily season," shall endeavor to write again.

Considering the season of the year, the health of the people, in this part of the world, is reasonably fair.

On last Saturday Richard A. McConnell, flagman on the Kentucky division of the I. C. railroad, was taken to Paducah by Dr. J. L. Reynolds, local surgeon for said railroad company, and was operated on for appendicitis.

On the 3rd ultimo Mrs. Nancy McGregor, wife of Floyd McGregor, was born in as cleak at the postoffice. Mrs. McGregor is a genial lady and an excellent young woman and it is with pleasure we note that the mail at Blackford will be dispensed by her.

Mrs. W. F. Pickens has returned from Dawson Springs, where she spent last week with her sister-in-law, Mrs. L. E. Smith. During a runaway by a frightened horse Mrs. Smith sustained an injury which resulted in a broken limb.

Milan and Marion Crowell embarked for Harrisburg, Ill., during the former part of last week.

Alvin E. Crowell and daughter, Miss Mary, of Cave Spring, were among the inhabitants of this burg Monday.

James F. Sow, of Crider, Caldwell county, was here on last Monday looking after business affairs.

Richard T. Reynolds, who has been at Truman, Ark., for about three months, returned to old Kentucky last week.

Our Crittenden county friend, J. C. Bourland, of Marion, was here recently writing fire insurance. Come again friend Bourland we are always glad to see you, even when we owe you for a bill of stationery or something else.

Among the phenomenal sayings in the day of parlance are these—W. T. Perry says, "Every pain affecting the human body which cannot be otherwise accounted for is ascribed to our 'Quack-doctors' as rheumatism."

R. H. Vaughn says, "A doctor is the only married person to exist in this country, & restrained that he can go from home to the bar or out into the fields, & when he does, he gets into trouble."

Another says, "The world is full of doctors, but there is no doctor in the world who can cure all diseases."

width, and in places its depth cannot be fathomed.

When the ground sank at this place the Mississippi river flowed up stream for two hours, until this body of water was formed. Wild ducks of different varieties and in great numbers inhabit the lake. Fish of many kinds abound in its waters, and in the forest surrounding, squirrels are numerous. Added to this, raccoon, mink, weasel and other animals are to be found.

This is a favorite resort for trappers and hunters, tourists and sportsmen from the large cities and many parts of the United States are frequently to be seen here. A hotel on the shore of the lake, gives accommodation to those who resort hither and a store is also kept there to supply the ammunition and everything needful to trappers, hunters and fishermen. Farther down on the lake gasoline boats are used. Many men are engaged here, deriving a living from the lake and its surroundings.

I noted the lovely trees that fringed the lake, cypress, elm, gum, oak and sycamore. Water lilies grew in profusion near the shore and around in the woods beautiful wild flowers were blooming.

But afternoon shadows began to warn us that we must turn our faces homeward and we made ready and took our departure. On our return trip as the sun was sinking in the golden west, we looked upon a scene that would take the pen of a poet or brush of an artist to do justice to. As we looked away to the distant hills crowned with green trees, and gilded with the light, we were told that we could see forty miles away. Below for miles we could view the fertile valley of the Mississippi with its rich farming lands, dotted here and there with white houses.

Our souls were awed into silence and adoration as we viewed the handiwork of the great Creator and rejoiced to trace in nature the hand of nature's God.

I have attended divine services almost every Sunday since I have been at Hickman. I leave here next week for Okemah, Okla. and may remember you with a letter from that place.

LEVIA

LESSONS OF EXPERIENCE

Learn as the years roll onward

And leave the past behind

Until much I have counted sorrow

but proves our God is kind;

That many a flower longed for

Had a hidden thorn of pain

And many a rugged brynh

Led to fields of ripen grain.

The clouds but cover the sunshine,

They cannot bunt the sun,

And the earth shines out the brighter

When the weary rain is done.

We must stand in the deepest sorrow

To see the clearest light,

And often from wrong's own darkness

Comes the very strength of right.

We must live through the weary winter

If we would value the spring,

And the woods must be cold and silent

Before the robins sing.

The flowers must be buried in darkness

Before they could bud and bloom,

And the sweetest and warmest sunshine

Comes after the storm and gloom.

So the heart from the hardest trial

Brings the purest joy of all,

And from lips that have tasted sadness

The sweetest song will fall.

For as peace comes after suffering,

And love is reward of pain,

So after earth comes heaven

And out of our loss the gain.

An Appreciation

We are indeed grateful for all the kindness shown to our dear mother, and for the sympathy shown to us, since she has gone from us forever. We shall ever remember these ministrations, and pray God's blessings on all.
